

Our Process

Baseline Interviews and Observations

Our team gathers information from key leaders and staff to determine the current systems and structures in place for student and staff social emotional learning, behavior support, and academics. Classroom and school observations can be conducted.

Data Analysis

Student behavior and academic data is examined to reveal patterns that impact student success.

Action Planning

Based on the reviewed and gathered evidence, comprehensive recommendations are made with actionable steps to increase student success. Support can be provided to implement the plan.

FIRST Education AESEL Center

AESEL AUDIT

Trying to make sense of student behaviors?

Looking to evaluate the social emotional skills in your students and staff?

Let our team guide you in unraveling the process of enhancing social emotional learning and student behaviors in your school or district. We leverage our tried and tested approaches, alongside our diverse range of experiences, to facilitate the development and advancement of your students' personal and interpersonal skills and their academics.
