

# ***Institutes and Workshops***

All institutes and workshops are fully customizable, but here are some of our most popular topics:

- Best Practices in Secondary Math Instruction
- How to Increase Math Discourse
- Math Workshop: Laying the Groundwork for Differentiation
- Leveraging Small Group Instruction: Mathematical Tools for Scaffolding and Extending Students' Conceptual Understanding
- Making Math Equitable Through Visual Models
- “Help! They Don’t Know Their Facts!” Moving Beyond Memorization by Developing Fact Fluency
- Launching Math Workshop: How to Plan for a Successful Start
- Productive Struggle: Strategies and Tasks for Promoting Perseverance in your Mathematics Classroom
- High Impact Strategies in your math classroom
- You’re a Math Coach...Now What?
- Understanding Standards and the Mathematical Progressions Students Move Through
- Moving Students from Dependent to Independent Learners in Your Math Class
