

IS YOUR DISTRICT PREPARED FOR GENERATIVE AI?

ONLY 7% OF SCHOOL DISTRICTS HAVE A PLAN FOR GENERATIVE AI.

Generative AI is going to have a major impact on how we teach, learn, and work in the future. Be sure your district leadership team is ready.

NEED HELP DEVELOPING A PLAN FOR GENERATIVE AI IN YOUR DISTRICT

Our team of artificial intelligence and district leadership experts can help your leadership team develop policies, protocols, and a plan to ensure a smooth transition to generative AI across all district stakeholder groups.

DISTRICT AI READINESS ASSESSMENT

Our team will help you build a customized readiness assessment for the district cross-functional teams.

DEVELOP A DISTRICT AI READINESS PLAN

Review assessment insights with district leadership to align an AI adoption plan with the overall goals and strategies of the school district..

DEVELOP AI POLICIES & DISTRICT PD PLAN

Develop AI policies that comply with existing district security and privacy policies.

Develop a plan for AI implementation that prioritizes professional learning for all staff.

DISTRICT AI READINESS PROCESS

We offer customized approaches to ensure school districts are ready to implement generative AI.

RISK MITIGATION

Develop specific policies and regulations for acceptable use so that all stakeholders can realize the opportunities of AI while minimizing risks.

DEVELOP GUIDELINES & GUARDRAILS

Create a district AI council to form policy and establish guardrails for AI implementation that support data privacy and security.
(e.g., FERPA, CIPA, COPPA, IDEA)

CENTER TEACHERS IN AI DECISION MAKING

Develop district structures that allow teachers to participate in decisions about the implementation and selection of AI-enabled technologies.

GUIDELINES FOR DISTRICT AI PROCUREMENT

Develop district AI procurement policies that focus on outlining problems and opportunities that allow room for iteration while staying within established district AI guardrails.
